2016	NCC	Women's Health N.P	16	13	81%
3 Yr Total	NCC	Women's Health N.P	66	50	76%

¹ Previously reported certification exams that have since been discontinued include: Acute Care Nurse Practitioner and Geriatric Nurse Practitioner.

² 2014 rates are of both first-time and repeat test takers due to merger - students that had graduated from both schools and during the three year time-period could have selected three institutions.

³ 3 total test takers in 2016 with graduation years of 2009 (2x) and 2003 (1x), none of which passed. Discontinued as of 2017.

⁴ In 2016, there were an additional 3 post-graduate, first-time test takers, of which 2 passed (67%).
